

Our first step is to pool together volunteers that are interested in becoming mentors. We require mentors to:

- participate in the training teleconference (approx 2 weeks prior to first workshop)
- attend the workshops offered every other week
- arrive at each workshop 15 mins. early and stay 15 mins. after wrap-up
- lead each bi-weekly 1:1 mentoring session with appointed mentee

The ideal volunteer/mentor is someone who is:

- interested in being a trusted counselor, guide, tutor or coach
- interested in helping another learn and is open to success
- able to help discover and develop the mentee's abilities; and to find the best in another
- able to invest time, know-how, and effort in order to enhance mentee's growth and potential
